

OFF-BOARD FARE SYSTEM

Administrative Point-of-Sale

COMPATIBLE WITH GENFARE **link**.

The Administrative Point-of-Sale device is designed with the agency in mind. Important features such as adding value or products to media, running reports, and other administrative functions will help your agency operate efficiently.

PRODUCT FEATURES

- Integrated touch screen computer with a built-in receipt printer.
- Touch interface with easy to read, simple screens.
- Fare media support, including: MIFARE DESFire EV1 smart cards, MIFARE Ultralight C, and magnetics.
- Stand-alone patron display.
- Uninterruptible power supply.
- Optional portable APOS with a ruggedized laptop, mouse, and separate receipt printer.

The Administrative Point-of-Sale terminal is an easy-to-use, modular customer service machine that can issue a wide variety of fare media, add value or products to media, run reports, supply refunds and credits, hotlists media, and query card histories. The Administrative Point-of-Sale can be custom configured using modular components including: a separate keyboard and mouse, a cash drawer, a smart card encoder, and a patron display. There is also an optional portable Administrative Point-of-Sale which uses a ruggedized laptop. The portable option can be used off-site to handle special events or special groups, including universities or schools.

The Administrative Point-of-Sale communicates with the central computer system through an Ethernet port and the customer's secure network to send transactions and receive auto-loads, hotlists, software updates, and security keys for smart cards.

RESPONDING TO RIDER AND AGENCY NEEDS
